Experienced in S&OP planning cycles, inventory optimization, and data-driven decision making using KPI tracking, with hands-on experience with BI tools.

## SKILLS

**Supply Chain Planning & Execution**
Demand Forecasting, Supply Planning, Inventory Monitoring, Material Planning, Warehouse Replenishment, KPI Monitoring, S&OP.

**Procurement & Supplier Management**
Procurement–planning interface, Lead time optimization, Supplier performance management, Strategic sourcing, BOM & Engineering Coordination, Risk & Resilience.

**Technical Skills**
SAP MM, Oracle Cloud, Power BI, Tableau, SQL, Advanced Excel, Process Digitalization.

**Soft Skills**
Analytical thinking, Problem Solving, Decision Making, Cross-functional collaboration, Process Improvement.

## PROFESSIONAL EXPERIENCE

**Amplifon SpA,** *Supply Chain Planning Specialist* 04.2025 – 03.2026 | Hamburg, Germany

- Managed SKU-level demand forecasting and country-level supply planning, improving forecast accuracy from 72% to 83%.
- Drove inventory relocation and obsolescence management, including target stock setting, reducing total inventory by 18% while improving service levels from 74% to 79%.
- Owned end-to-end replenishment planning for warehouse-managed SKUs, ensuring material availability and alignment with demand. Monitored logistics costs and optimized order placement through consolidation.
- Led monthly S&OP review meetings, aligning Sales, Marketing, and Supply Planning to support product lifecycle and new product launches, and ensuring forecast alignment with business objectives.
- Developed KPI dashboards in BI tools, analyzed service levels, inventory trends, and forecast deviations, improving decision-making visibility.

**Amplifon SpA,** *Procurement Intern* 06.2024 – 03.2025 | Hamburg, Germany

- Drove change management for a new Procure-to-Pay (P2P) system, coordinating stakeholder onboarding and resolving process gaps, improving P2P adoption by 12%.
- Performed spend analysis and supported procurement operations for €2M monthly indirect spend, contributing to cost control and achievement of annual savings targets.

**Sun Pharma Ltd.,** *Procurement Specialist* 08.2022 – 11.2023 | Mumbai, India

- Owned end-to-end indirect procurement category (INR 12 Cr spend), achieving 9% cost savings through strategic sourcing.
- Supported implementation of the Ivalua e-procurement system in collaboration with Accenture, improving procurement cycle efficiency and enabling 80% e-Procurement adoption.

**Piramal Enterprises Ltd.,** *Global Procurement Specialist* 02.2021 – 08.2022 | Mumbai, India

- Acted as key interface between global and local procurement teams, aligning category strategies, standardizing reporting, and ensuring process consistency across regions.
- Enhanced procurement digitalization by automating SAP reports and dashboards, reducing manual workload by 20–30% and improving KPI visibility.
- Optimized supplier performance monitoring and supply risk visibility through structured delivery follow-up mechanisms and governance tracking.

**Rochem Separation Systems,** *Supply chain Specialist* 12.2019 – 02.2021 | Mumbai, India

- Monitored material requirements against project demand forecasts, identifying supply risks early and taking corrective actions to avoid shortages.
- Identified supply bottlenecks and capacity constraints, improving supplier OTIF from 85% to 93% through proactive delivery follow-ups and planned projects, ensuring material availability aligned with project timelines.
- Managed SAP material movements, stock transfers, and master data, maintaining accurate inventory and planning data.
- Coordinated BOM updates and engineering changes, supporting smooth execution across different project phases.

## EDUCATION

**Hochschule für Technik und Wirtschaft,** 10.2023 – 09.2025 | Berlin
*Master of Business Administration (MBA)*

**Mumbai University,** *Bachelor of Mechanical Engineering* 06.2015 – 05.2018 | Mumbai

## MASTER THESIS

**Business Impact of Machine Learning in Demand Forecasting**

Collaborated with IT consultants and the Global SCM team to assess machine learning-based forecasting vs. traditional methods. Implemented a hybrid model and developed a roadmap and recommendations for global adoption.

## MASTER COMPETITION

**4Flow Europe**

Finalist in the 4Flow Challenge – Developed an innovative logistics solution as part of a consulting-style case competition.

## LANGUAGES

**ENGLISH** — Native/Bilingual

**GERMAN** — Conversational

## CERTIFICATES

**CSCMP - Demand Planning Professional Certificate**

**CSCMP - Procurement Professional Certificate**

**CSCMP - Inventory Management Professional Certificate**
